RIPIANO

ENVIRONMENTAL
STONEWORKS®

Ripiano offers a fresh new look to ledgerstone by incorporating smaller, thinner pieces into a modular panel with a unique stair-edged profile designed to eliminate seams, often seen with single stone applications. Partnered with the Ripiano singles and corners to complete the design, you'll agree the results are truly heavenly.

Select from a breathtaking color palette of stone inspired by the beauty of the night sky and add life to any interior or exterior environment.

SPECS AND SIZES

SINGLES

This fresh, stair-edged profile is designed to eliminate seams often seen with single-stone applications.

CORNERS

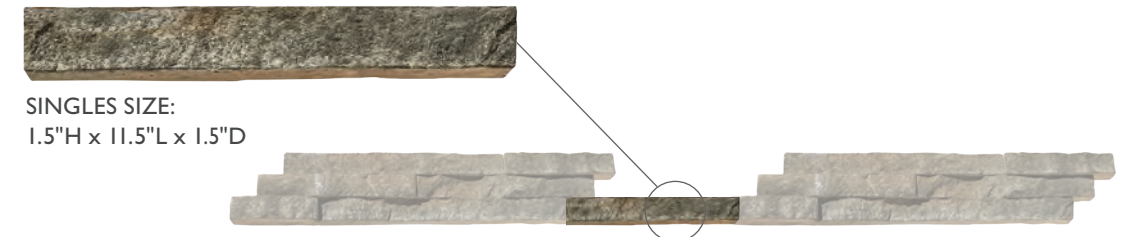

BOX CONTENTS

FLATS: 8 sq ft

SINGLES: 7 sq ft

CORNERS: 7 linear ft

Ripiano flats have the appearance of 3 rows of stone. Singles are individual pieces used to fill in gaps that may occur during the installation process.

INSTALLATION TIPS FOR RIPIANO SINGLES

- Install Ripiano flats and corners (if necessary) until you've reached a section in your row which is smaller in width than a full size flat panel.
- Cut singles to size in order to fill your gap.
- It is not recommended cutting any panel flats or corners during installation.

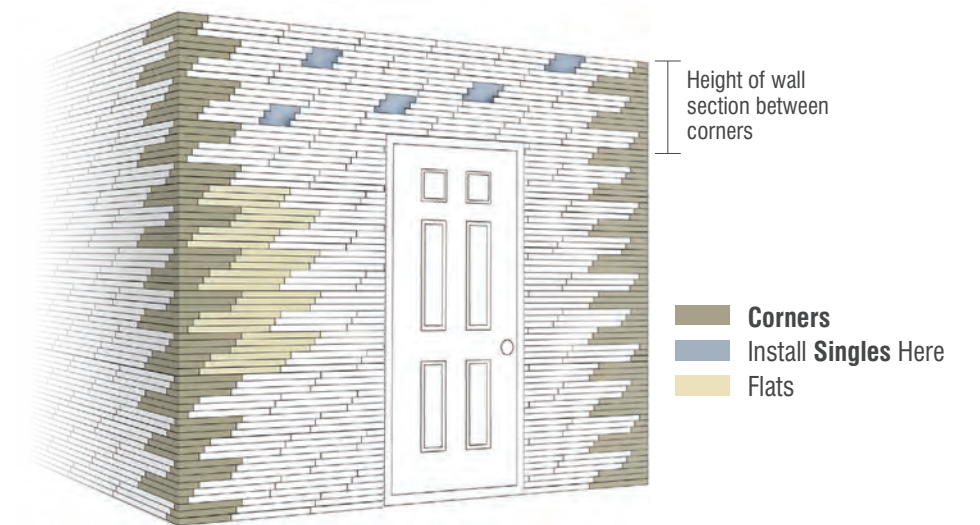

INSTALLATION TIPS FOR RIPIANO CORNERS

- Install all Ripiano corners in a row first, including both left and right side if applicable.
- Install Ripiano flats to row until a small gap remains.
- Install Ripiano singles to fill your gap.

DETERMINING QUANTITY OF SINGLES REQUIRED

Use the formula below for estimating the total number of singles required for your wall.

Note: Ripiano *singles* should only be used to fill small gaps between *two corners*.

$$\left[\frac{\text{Height of wall section between corners}}{4.5"} \right] \times 6 = \text{Total Singles Needed}$$

Max of 6 Singles Per Row

MANUFACTURING + INSTALLATION = MORE VALUE

Environmental StoneWorks stone is manufactured and installed by our own trained craftsmen and meets or exceeds every spec in the book. You will have one point of responsibility from a company with over 40 years of experience of performing day in and day out. No wonder more general contractors, architects and builders trust us with their projects.

Start with quality. Have a look at our regional product selections from all over North America to meet your design needs at www.estoneworks.com.

Add the right people. From your dedicated Sales Leaders and Project Management team to a highly-trained and certified installation crew, your project will remain in extremely capable hands from start to finish.

Communicate daily. Enjoy real-time reporting from our field support team so you are always kept in the loop. We are proud to offer the latest in communication technology.

Stay safe. Our safety programs are groundbreaking – and our safety record is exemplary. That's why safety is our bottom line.

Get more value. Because we install, you enjoy greater control throughout the project. We also provide the best product and installation warranties in the business.

- All products are IAPMO - ER-386 certified and conforms to the latest AC-51 specifications
- Over 60,000,000 square feet of annual production capacity
- 5 Manufacturing Plants and numerous Installation Hubs located strategically throughout the country
- Over 30,000 projects executed yearly
- Millions of dollars of bonding capabilities to ensure your project is always protected
- Material only sales available where installation service is not offered or preferred
